

## Environmental Series

### GHOST GEAR OCEAN CLEAN UP PROJECT

Tuesday, May 2, 7 pm

**Zora McGinnis** the Ghost Gear Project Coordinator for the Coastal Marine Team at **Coastal Action**.

Abandoned, lost or discarded fishing gear is a significant issue in Nova Scotia and her team had a successful 2022 season removing many tonnes of it out of our waters.

**Abbey Duinker** is a Project Coordinator with the Coastal and Marine Team at Coastal Action. Her current project focuses on working with recreational users to reduce disturbances of sea and shore birds on coastal islands, preserving both recreational opportunities and natural habitats.

### KESPUKWITK REPTILE CONSERVATION PROJECT

Tuesday, May 9, 7 pm

Speaker **Noah Hardy** is Senior Field Technician on the Species at Risk and Biodiversity Team at **Coastal Action**. He will discuss the Kespukwitk Reptile Conservation Project, amphibian migration, the threats reptiles and amphibians face, why they matter, and what action you can take.

### SABLE ISLAND

Tuesday, May 23, 7 pm

**Ian Manning** (*NSCC Natural Resources and Environmental Technology Instructor*) will share pictures and stories of his day on Sable Island last summer with environmental scientists.

### METERORITES CLOSE UP

Tuesday, May 30, 7 pm

Come hear **David Griffith** (lifelong meteorite collector) about meteorites, what they are, where they come from, how we find them, and why they are so important to understanding our universe. He will also share his display of meteorites from around the world.
